STATEWIDE CURRENT SITUATION: Texas A&M Forest Service (TAMFS) received one new request for assistance for wildfire suppression operations on Saturday, April 16. Elevated fire weather conditions are forecasted for the western Texas Panhandle today.

NWS Fire Weather Outlook Valid: 7AM 4/17 to 7AM 4/18.

Weather - Day 1 Fire Weather Outlook: As the core of the strong/deep west-northwesterly flow impinges on the central Rockies and adjacent High Plains, diurnal heating will allow for the strong flow aloft to mix down to the surface. 20-30 mph sustained west-northwesterly surface winds (with higher gusts) are expected from eastern WY into western NE and northeastern CO behind the southward-advancing cold front. Here, a relatively cool airmass could limit RH reductions to an extent, however, the strong/gusty surface winds and very dry fuels will still result in critical fire-weather conditions. Along the lee of the Rockies from central CO into NM, downslope flow amid a warmer/drier antecedent airmass will favor 10-15 percent minimum RH with 20-25 mph sustained west-northwesterly surface winds.

On April 12, Governor Abbott directed the Texas Division of Emergency Management (TDEM) to prepare additional state resources for mobilization as Texans face critical-to-extreme wildfire weather conditions in the Western half of the state and severe storm threats in the Eastern half of the state. The Texas State Emergency Operations Center (SOC) is operating at Level II: Escalated Response in support of severe weather and wildfire response.

According to the Texas A&M Forest Service (TAMFS), a Southern Plains Wildfire Outbreak is possible, April 12, in the Texas Panhandle. This event may impact communities near Canadian, Amarillo, Childress, Lubbock, and Midland where extremely dry vegetation will be subjected to above normal temperatures, low humidity, and high wind speeds. A heightened threat of fire danger through Wednesday includes the Panhandle, South Plains, Permian Basin, West Texas, Big Country, Concho Valley, Texoma, and the Border Region.

TAMFS has activated more than 325 state firefighters, 175 local firefighters from 56 different departments through the Texas Intrastate Fire Mutual Aid System (TIFMAS) including 45 engines and has called in more than 100 firefighters from 12 states. TAMFS is utilizing more than 35 aviation resources including 3 large airtankers, 15 single engine air tankers, six air attack platforms, and five type 1 helicopters.

On April 1, Governor Abbott amended the Disaster Declaration, adding Andrews, Aransas, Archer, Bee, Bell, Borden, Bosque, Brewster, Cameron, Coke, Concho, Cooke, Crane, Crockett, Culberson, Dawson, Dimmit, Duval, Ector, Edwards, Gaines, Garza, Hemphill, Hidalgo, Howard, Hudspeth, Jeff Davis, Jim Hogg, Jim Wells, Kenedy, Kimble, Kleberg, Live Oak, Martin, Maverick, McCulloch, Menard, Midland, Nueces, Palo Pinto, Parker, Pecos, Presidio, Reagan, Real, Refugio, Roberts, Terrell, Tom Green, Upton, Wichita, Willacy, Winkler, Wise, Zapata, and Zavala counties.

On March 29, Governor Abbott encouraged Texans to remain vigilant and informed on weather conditions as fire danger and severe weather threaten the state.
(Complete Statement Here)

On March 27, Governor Abbott amended the Disaster Declaration, adding Medina County.

On March 21, Governor Abbott amended the Disaster Declaration, adding Blanco, Erath, Hood, Runnels, and Starr counties.

On March 18, Governor Abbott issued a Disaster Declaration due to an imminent threat of widespread or severe damage, injury, or loss of life or property in Brooks, Brown, Coleman, Comanche, Eastland, Grayson, Mason, Potter, Randall, and Williamson Counties.

On March 16, Governor Abbott directed TDEM to activate additional state resources as escalated fire weather conditions continue to impact the state.

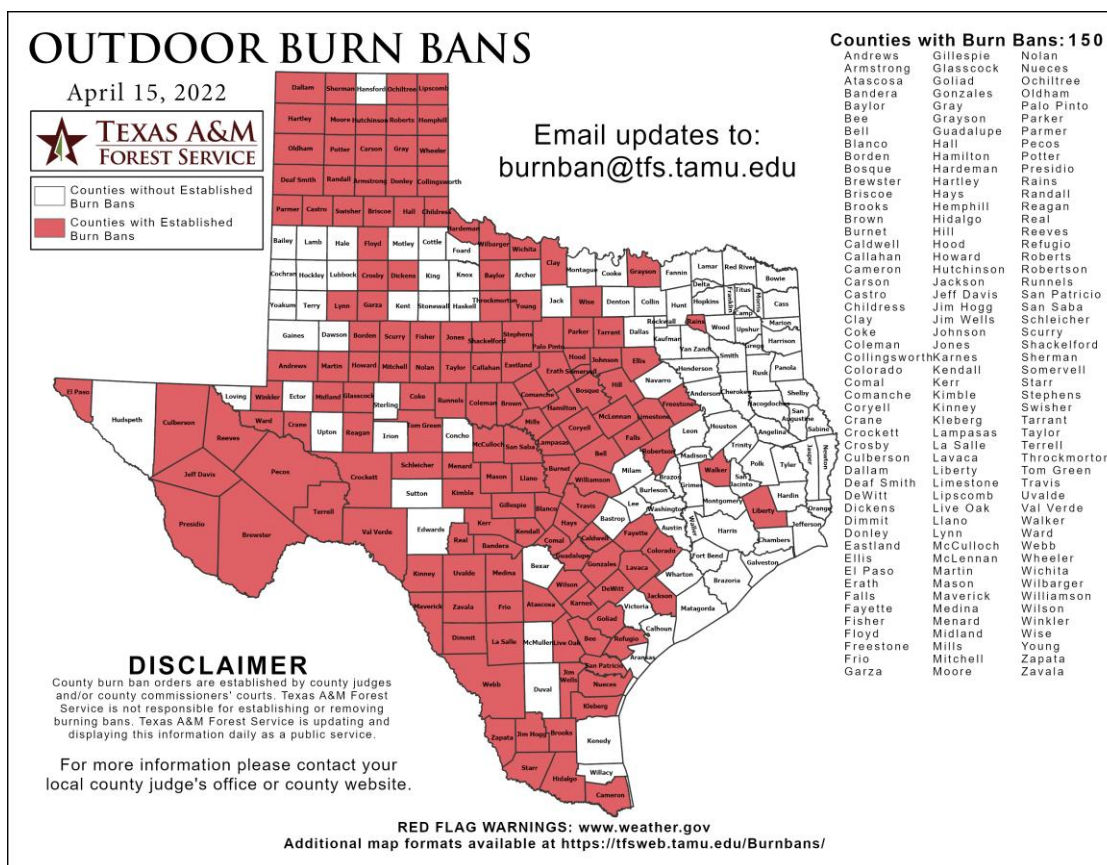

On March 15, Governor Abbott directed TDEM to mobilize state resources as Texas faces increased fire weather conditions.
